Ispirata agli inconfondibili dettami stilistici del mondo **Déco**, la collezione **Mon Trésor** è caratterizzata da forme e linee essenziali, che disegnano curve ampie e profondamente avvolgenti in grado di enfatizzare lo sviluppo orizzontale delle creazioni a sospensione.

Progettati appositamente per ambienti con altezze contenute, gli chandelier **Mon Trésor** si sviluppano intorno ad un telaio centrale con speciale finitura ottenuta tramite processi di elettrocolorazione, che permettono di ricreare nuance più intense ed offrire una gamma cromatica più ampia ed articolata. I dischi in **vetro di Murano bicolore**, alla base degli elementi portalampada, creano affascinanti rifrazioni e diffrazioni della luce, a loro volta amplificate dalla lucentezza dei paralumi cilindrici in fine tessuto laminato con finitura dorata.

Sensazione eteree di impalpabile equilibrio, enfatizzate dai cristalli **SWAROVSKI ELEMENTS** nelle colorazioni **Bronze Shade e Golden Shadow**, raccolti in composizioni con sistema di fissaggio invisibile a sospensione che amplifica le sensazioni di leggerezza e di armoniosità dell'intera creazione.

The **bicolor Murano glass** plates, laying at the base of each lamp holder, create fascinating refractions and diffractions of light, amplified by the sparkling of cylindrical lampshades manufactured with refined laminated fabric with golden finish.

Ethereal feeling of intangible equilibrium, emphasized by **SWAROVSKI ELEMENTS** in colors of **Bronze Shade and Golden Shadow**, collected and suspended in compositions by and invisible fixing system which enhances the sensations of lightness and harmony of the entire creation.

Elegante e fortemente contemporanea, la collezione **Miss Bijoux** è simbolo del **perfetto equilibrio tra la classicità delle linee elegantemente retrò**, le esclusive lavorazioni delle finiture e le importanti innovazioni costruttive, tecniche e funzionali che caratterizzano i modelli di chandelier, applique, piantana e lampada da tavolo.

Simbolo ed **emblema della maestosità della luce** che regna sovrana grazie all'imponenza delle forme ed all'incredibile minuziosità dei particolari, la collezione **Queen of Roses** incarna l'esperienza e l'eredità di una tradizione e di una maestria artigianale centenaria.

La **struttura in metallo**, rivestito in **vetro di Murano**, disponibile in **diverse colorazioni e finiture** o con esclusiva **placcatura in oro 24 carati**, gli **SWAROVSKI ELEMENTS** incastonati sulla coppa centrale, la miriade di pendenti e catene ornamentali di cristalli, rappresentano la magnificenza che dà forma all'incomparabile **unicità di un'opera d'arte**.

Un tripudio di **luce, funzionale e scenica**, che si propaga inondando l'ambiente con iridescenze ed emozionanti sfumature generate dalle decorazioni con motivi floreali e dalla prestigiosa rosa centrale, una vera e propria scultura di grande valore artistico realizzata interamente a mano, che rappresenta il cuore e l'anima, unica, impareggiabile ed irripetibile, di ogni creazione.

QUEEN OF ROSES

As a symbol and **emblem of the majesty of light** that reigns supreme, thanks to the magnificence of shapes and unbelievable minuteness of details, **Queen of Roses** collection embodies the experience and heritage of a centenary tradition of craftsmanship and mastery.

The metal structure, coated in **Murano glass** and available in different colorations and finishings and in the exclusive **24-carat gold plated** finishing, the **SWAROVSKI ELEMENTS** inlaid on the central cup, the myriad of pendants and ornamental crystal chains: all this represents the magnificence that gives shapes to the incommensurable **uniqueness of a work of art**.

A jubilation of **light, both functional and scenic**, that spreads and immerses the environment in iridescence, and stirring hues, generated by the colorations with their floral motifs, and by the prestigious central rose, truly a sculpture of great artistic value, entirely handmade, representing the heart, and soul of every creation.

La nuova collezione di plafoniere **Mademoiselle Corolle Ceiling Lamps**, è dedicata ad **ambienti con altezze contenute**, e nasce da elementi stilistici classici, floreali e di **ispirazione decò**, reinterpretati in chiave moderna, giovane e vivace.

La progettazione tecnica, interamente modulare, permette di **personalizzare le dimensioni** delle creazioni per adattarle alle specifiche esigenze abitative, trasformandole in soluzioni di illuminazione funzionali e stilisticamente inedite, decorate con roselline in **vetro colorato**, o **dischi in metallo galvanizzato** con emblema **Beby Italy** realizzato con taglio al laser.

Particolari ricchi di personalità che si completano grazie all'esclusiva tecnica di lavorazione del **vetro di Murano**, frutto degli studi sulla rifrazione della luce, che genera finiture granulari con affascinanti effetti chiaroscurali, velature ed intense, suggestive sfumature.

MADemoiselle COROLLE

This new collection of ceiling lamps, **Mademoiselle Corolle Ceiling Lamps**, is dedicated to **environments with limited height**; it develops out of classical stylistic elements, and is inspired by deco and floral motifs, but all in a modern, young, and vivacious reinterpretation.

The technical design, entirely modular, allows for a customization of all creations dimensions in order to adapt them to specific needs. This brings to life a lighting solution which is functional and stylistically original, with decoration of **colored glass roses** or **galvanized metal plates**, bearing the **Beby Italy** emblem realized by laser cutting.

Unique details rich of personality, accompanied by an exclusive technical workmanship, a result of studies carried on the refraction of light, which generates granulose finishing and fascinating sparkles, glazes, and intense, suggestive hues.

Ispirata ai tagli ed alle forme geometriche delle pietre preziose, la collezione **Stone** è contraddistinta da un carattere **moderno ed essenziale**, generato dal sapiente abbinamento a contrasto tra **linee rette e curve**, tra sfaccettature marcate e forme arrotondate, che restituiscono affascinanti sensazioni di ritmo ed alternanza fortemente contemporanee.

Uno stile originato dalla ricercata dicotomia tra la struttura e la fascia in acciaio, con **logo DL e Stone**, gli inserti in vetro molato ed i cristalli **SWAROVSKI ELEMENTS** che amplificano ed armonizzano la rifrazione dell'illuminazione a **doppia accensione con led abbinati a luci tecniche G9 o a soluzioni a bassa tensione**, che garantiscono la giusta attenzione al risparmio energetico.

La collezione **Stone** è composta da sospensioni, applique e lampade da tavolo, disponibili in diverse dimensioni, che integrano i modelli di piantana e plafoniera, per offrire proposte complete e coordinate in grado di caratterizzare in modo unico, con la forza, l'intensità ed il gusto del design, ogni ambiente.

STONE

The **Stone** collection is inspired by the cuts and **geometric shapes of precious stones**.

The collection stands out for its modern, essential character, expressed by clever, contrasting **combinations of straight and curved lines**, distinctive facets and rounded forms that create a fascinating sensation of rhythmic, contemporary alternation. The design is characterised by the refined contrast between the frame and the steel fascia, with **DL and Stone logos**.

Ground glass inserts and **SWAROVSKI ELEMENTS** crystals amplify and harmonise the **refractions of the two-level lighting from LED and G9 halogen capsule lamps or other low consumption solutions chosen** to pay rightful homage to the cause of energy saving.

The **Stone** collection comprises hanging chandeliers, applique and table lamps in different sizes, as well as column lamps and ceiling lights. The collection can therefore offer complete and fully coordinated solutions capable of adding character, identity, and intense but tasteful style to any room.
