FEDE new TOSCANA Lighting collection

Tuscan interior decorating is all about attention to the finest details. At FEDE we have been moved by the natural beauty of Tuscany, its romantic countryside to create a new collection of lighting and switch plates that will provide the final touch to each beautiful villa, charming hotel, palace or castle. The exclusive FEDE brass and handmade finishes create the perfect and warmest atmosphere to enjoy and relax in.

The new FEDE TOSCANA collection is a “must have” for anyone wishing to achieve a Mediterranean Tuscan style of decoration.

The new FEDE TOSCANA collection is comprised of the Firenze, Siena, Lucca, Chianti, Pisa and Prato product lines.

FEDE New SAN SEBASTIAN Interior Lighting collection

Our prestigious SAN SEBASTIAN collection of switch plates with exceptionally exquisite finishes that distinguish them as High Class Décor, is currently **the number one in our Classics range**. Inspired by these exclusive designs, we have created two **new lighting fixtures** to be the perfect combination, from wall to ceiling, dressing the house with same style for the best possible interior.

The new fixed recessed spot lights are available in round and in square. Our exclusive finishes are: bright patina or antique bronze, bright gold, bright chrome and our new white patina made in bright gold. All are examples of the highest craftsmanship of real brass by our master craftsmen.

It makes design sense to use the same decorative styles for switches plates and lighting fixtures. «**SWITCH & LIGHT**» is a new concept that unifies switching and lighting, created by FEDE.
