ROCK  
COLLECTION

## ROCK COLLECTION

ROCK COLLECTION is defined by its minimalistic design and the innovative application of a unique material for the shades – stone. The shades are made from razor-thin veneers of natural shale offered in various stone surfaces. Since sculptural variations occur naturally in stone, every shade is one-of-a-kind and allows for subtle, sculptural lighting. The combination of the lamps and tables leaves room for plenty of creative freedom thanks to the variety of sizes and proportions and allows for a wide range of applications, which represents the highest quality in craftsmanship.
